CAREER OBJECTIVE

Passionate Front-End and Full-Stack Developer with strong skills in HTML, CSS, JavaScript, and modern frameworks. Experienced in building responsive, user-friendly applications with a focus on performance and accessibility. Recently expanded into AI/ML, completing projects that apply intelligent solutions to real-world problems. Eager to contribute to innovative, interactive digital experiences while growing in a collaborative environment.

EDUCATION

• KL University, Vijayawada	CGPA: 9.03 (Current)
Bachelor of Technology in Computer Science and Engineering	2022 – 2026
• BGS Science Academy & Research Center, Karnataka	Percentage: 88%
Intermediate	2020 – 2022
• ST. JOHNS English School, Nandyal	SSC GPA: 10
Schooling (10 th)	2019 – 2020

TECHNICAL SKILLS AND INTERESTS

Programming: c, Python
Web Development: HTML, CSS, JavaScript, React.js, Node.js, Django, Spring Boot
Databases: MySQL, PostgreSQL
AI/ML: Scikit-learn, Pandas, NumPy, Matplotlib, PyTorch
Soft Skills: Good communication, Team management, Problem-solving, Adaptability

PROJECTS

- Online Job Portal (CAREER CONNECT)**
Optimized and enhanced the job portal interface, improving accessibility and seamlessly streamlining the application process.
 - Established a comprehensive backend infrastructure via Python and Django, optimizing data management protocols led to an increase in data retrieval speed, allowing for real-time processing of 1000+ data records.
 - Developed and implemented application architecture using Django, Bootstrap, HTML, and pgAdmin streamlined database queries that Organised response times for user job searches by an average of 30 seconds.
- SmartAssist – AI-Powered E-commerce Chatbot**
Developed as part of an academic research project on AI-driven conversational systems for e-commerce applications.
 - Built an interactive e-commerce chatbot using **React** + **Vite** integrated with **BERT**, **LSTM**, and **Transformer** models for sentiment analysis and intent recognition.
 - Delivered personalized product recommendations and real-time responses, enhancing customer engagement and user experience.

INTERNSHIP EXPERIENCE

- Odenkirk Private Limited**
Backend Engineer Intern focused on optimizing backend systems and databases.
June 2024 – July 2024 Remote
 - Designed and improved server-side logic and APIs, enhancing system performance and scalability; gained hands-on experience with GitHub, project deployment via Putty, and API key management.
 - Optimized database operations through indexing and query refinement, resulting in faster data retrieval and more reliable system performance.

CERTIFICATIONS

- Multicloud Network Associate
- Red Hat Certified Enterprise Application Developer
